

Non-Public Information

(N.P.I.)

Are you ready for all the changes that go into effect this year?

Ask yourself the following questions...

1. Do I know what information is considered private?
2. Is my e-mail a secure e-mail?
3. Can I use anyone's copy machine for business documents?
4. What do I do with my files when I go home?
5. Can I use my phone to send photos to clients?

Can you answer them all? Do some make no sense? Or even leave you with more questions?

At Mid-American Title, we have taken the time to learn all about N.P.I., in fact our entire staff has completed courses and received N.P.I. Certification for our industry!

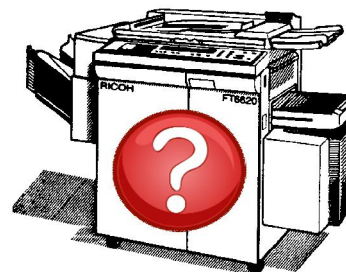

We want to share our knowledge with you. Don't be left behind when these changes all take effect.

Mid-American Title wants to help you be ahead of the curve. We are more than happy to offer our knowledge on many of the current and upcoming changes.

Such as...

- Training on what is, and is not, considered private information
 - Setting up, Implementing, and Using secure e-mail
 - New Transportation Security Requirements
 - N.P.I. protections and protocols
 - and Much More

Contact us today and let us help you get ahead!
